- Flexible architecture lets Virtual Systems deploy your solution in either a self-service or fully managed model

- Our team of Certified Engineers will help you at every step of the way

- Multiple restore methods are available

- Advanced search capabilities

Microsoft deletes your data at different intervals starting at two weeks. Our solutions let you keep all your Exchange, OneDrive, Sharepoint, and Teams data for as long as you need.

Flexible Options for Every Deployment

- Virtual Systems manages solutions from 5 to 15,000 users

- Per user pricing starts at $3.50/user with price breaks at 100, 500, 1,000, 5,000, and 10,000 users

- Unlimited storage with one-year retention

RETENTION POLICIES: WHAT EXACTLY DOES MICROSOFT BACK UP?

	Backed up with Virtual Systems					
Junk emails	Microsoft 365	Permanently deleted				
	Backed up with Virtual Systems					
Employee leaves the company	Microsoft 365	Permanently deleted				
	Backed up with Virtual Systems					
Deleted SharePoint sites and items	Microsoft 365	Archive*	Permanently deleted			
	Backed up with Virtual Systems					
Deleted OneDrive for Business files	Microsoft 365	Archive*	Permanently deleted			
	Backed up with Virtual Systems					

Office 365 backup and retention policies can **only protect you from data loss in a limited way** and are not intended to be a complete backup solution.

Retention policies are always evolving and tend to be **very complicated to manage and monitor.** Some Admins believe they are covered, only to find that in fact certain emails are gone.

DEVELOPING A BUSINESS CONTINUITY SOLUTION IS A DAUNTING TASK, BUT VIRTUAL SYSTEMS PULLED IT OFF EFFORTLESSLY.
